

SportCoachHub

Connecting Coaches, Athletes and Sports Organizations

LOGO PLACEHOLDER

What is SportCoachHub

SportCoachHub is a professional platform that connects sports coaches with athletes, clubs, academies and sports organizations. The platform focuses on three primary categories: Tennis, Padel and Fitness & Conditioning. Our mission is to make it easier for coaches to promote their services and for employers or athletes to find qualified professionals.

How Coaches Benefit

Coaches can create a professional profile, showcase their experience, certifications and coaching services, and connect directly with athletes and clubs looking for coaching expertise. SportCoachHub helps coaches increase visibility, receive inquiries and build professional opportunities within the global sports community.

How Clubs Find Coaches

Sports clubs, academies and organizations can search for coaches based on sport category, experience and specialization. Employers can also post coaching opportunities and connect directly with qualified professionals through the platform.

How to Create a Coach Profile

Creating a coach profile is simple: register an account, add your professional information, describe your coaching services, upload certifications if available, and publish your listing. Once your profile is live, athletes and clubs can contact you directly.

Founding Coaches Program

SportCoachHub is currently in its pre-launch phase and inviting the first 30 professional coaches to join as Founding Coaches. Founding members receive priority visibility on the platform and a free PRO membership for 12 months. This is an opportunity to become part of the platform from the beginning and grow together with the SportCoachHub community.
