

SportCoachHub

Platform Guide – How SportCoachHub Works

LOGO PLACEHOLDER

What is SportCoachHub

SportCoachHub is a marketplace platform connecting professional sports coaches with athletes and sports organizations. The platform focuses on tennis, padel and fitness & conditioning professionals and helps them connect with individuals and clubs looking for coaching expertise.

For Coaches

Coaches can create a professional profile, showcase their experience, coaching services and specializations. Once the profile is published, athletes and sports organizations can discover the coach and contact them directly.

For Athletes

Athletes can browse coaches by sport, experience and location. By comparing coach profiles, athletes can find the right professional for their training goals.

For Sports Clubs & Employers

Sports clubs and academies can post coaching jobs or browse coach profiles to identify qualified professionals for their programs and teams.

How the Platform Works

1. Coaches create their professional profile. 2. Athletes and clubs browse coaches or coaching categories. 3. Employers can post coaching opportunities. 4. Coaches and organizations connect directly to discuss training or job opportunities.

Pre-Launch Phase

SportCoachHub is currently onboarding the first group of coaches and sports organizations. Early members benefit from increased visibility and opportunities to build their presence on the platform.
